

**Dr. Ananthkrishnan Srinivasan** is a Professor with HAG pay scale in Physics Department, IIT Guwahati. He completed his M. Sc (Physics) from Bharathidasan University in 1985 followed by M. Sc. (Engg.) and Ph.D degrees from I.I.Sc., Bangalore in 1989 and 1992, respectively. After post-doctoral stints in National Physical laboratory, Delhi, Instituto de Estructura de al Materia, Madrid and Solid State Physics Division, BARC, Mumbai, he was a Reader in Physics, Assam University, Silchar for an year, before joining IIT Guwahati. He has held posts of Head of Physics Department and Dean of Students' Affairs, Administration and Faculty Affairs at IIT Guwahati.

Dr. Srinivasan is a recipient of DAE Young Scientist Research Award in 1996, post-doctoral fellowship from the Ministry of Science and Education, Spain (October 1993- September 95), Visiting Scientist fellowship from National institute for Materials Science, Japan (January – December 2009) and Visiting Professorship at University of South Africa (June 2016 – September 2017). He is an elected Fellow of the Instruments Society of India. He is a member of the DST – Fast Track Scientist Selection Committee (Mathematical & Physical Sciences) from 2012. He is a member of scientific review committee of IRIS (an Intel-DST-CII initiative) since 2011. He is currently a member of the Board of Governors of NIT Agartala. He has also served as a member of Board of Governors of IIIT Guwahati and NIT Mizoram.

His current research interests are in glasses and glass-ceramics for optical, biomedical and electronic applications, magnetic materials (Heusler alloys for spintronic and magneto-caloric applications, nanomagnetic materials for biomedical applications and ultra-soft nanomagnetic materials) and developing instruments. He has published 130 papers in peer-reviewed journals and supervised eleven PhD student thesis works. He has co-edited one book and co-authored one web-based NPTEL course.
